🎓 Education

Rajshahi University of Engineering & Technology (RUET)   April 2022 – May 2026 (Expected)
B.Sc. in Computer Science & Engineering   *Rajshahi, Bangladesh*

🏆 Honors & Awards

- **Profiles:** Codeforces **Expert (Max 1734)** | codeforces.com/profile/The_Ruthless | CodeChef **5★ (Max 2019)**| codechef.com/users/ghost_014 | AtCoder **Cyan (Max 1271)** | atcoder.jp/users/Ruthless__
- **8th** out of 120+ teams at **UIU IUPC 2025** (Team: 1000000007)
- **1st Runner-up** at Codespark 2022 (Intra RUET fresher team contest)
- **2nd Runner-up** at Codesmash 2021 (Intra RUET fresher individual contest)
- **20th** out of 100+ teams at **IUT IUPC 2024** (Team: RUET_Onirban)
- **23rd** out of 120+ teams at **BUET IUPC 2024** (Team: RUET_a_bit_slower)
- **30th** out of 300+ teams at **ICPC Asia Dhaka Regional 2024** (Team: RUET_a_bit_slower)
- **Code Samurai 2024**: advanced to the on-site round; 14th in preliminary round (Team: RUET_UNKNOWNS)
- **BUET Game Fest 2023**: 16th / 40+ teams (Team: RUET_Unknowns; built a 2D game using Godot)

🔨 Programming Contest Judge

- **Problem Setter — Codesmash 2022** (held in Dec 2023) | Codesmash 2022 Facebook Event page
- **Reviewer & Tester — Codesmash 2023** (held in Jul 2024) | Codesmash 2023 Facebook event page
- **Contest Coordinator — Codesmash 2024** (held in Jul 2024) | Codesmash 2024 Facebook event page

🥧 Experience

Vivasoft Limited   Mar 2025
Industrial Trainee (Apprenticeship)   *Rajshahi, Bangladesh*
> Completed a 12-day mentor-led MERN attachment; built the SellSense MVP (Next.js/Redux, Express REST APIs, MongoDB) with LangChain-based summarization, using Git/GitHub + Husky hooks and Postman for validation.

⚗ Projects

Codebook App   Jun 2025 – Jul 2025
Flutter, Firebase, Groq API, Provider
Repo: github.com/Sefayet-Alam/Codebook-App
> Flutter snippet manager with Firebase Auth + Firestore real-time sync; added AI assistant (Groq) for explanation/review and PDF export with rich snippet actions.

SellSense   Mar 2025 – Apr 2025
JavaScript, LangChain, LLMs
Repo: github.com/Sefayet-Alam/SellSense_LangChain
> AI messaging prototype using LangChain to summarize buyer–seller chats into structured records (key points, sentiment, action items) for storage and later retrieval.

Blog-Agency-App   Dec 2024
React, Node.js/Express, MongoDB
Repo: https://github.com/Sefayet-Alam/Blog_app
> MERN dashboard for managing blogs, teams, and services; implemented role-aware CRUD flows with a RESTful Express API backed by MongoDB.

Live on: https://blog-agency-sef.netlify.app/

⚙ Skills

Strengths   Data Structures & Algorithms | Problem Solving
Languages   C/C++ | Java | Python | JavaScript | Dart
Libraries/Frameworks   React | Express.js | Django | Django REST Framework | Flutter | LangChain
Platforms/Databases   Node.js | Firebase (Auth, Firestore) | MongoDB | MySQL (basic)
Tools/Practices   Git/GitHub | Postman | REST APIs
Problem Solving   Solved **3500+** problems across multiple online judges,participated in 15+ national contests.
